

OPTIMAL USAGE INSTRUCTIONS FOR MAXIMUM HAIR CARE BENEFITS

To ensure you achieve the best possible results from our hair care products, we've provided clear and concise usage instructions. Follow these steps to experience the full potential of our offerings:

SHAMPOO USAGE

WET YOUR HAIR

Begin by thoroughly wetting your hair with lukewarm water.

APPLY THE SHAMPOO

Take a moderate amount of our shampoo and apply it to your scalp. Gently massage in circular motions, ensuring the product reaches the roots.

WORK INTO A LATHER

Continue massaging to create a luxurious lather. Allow the shampoo to cleanse and nourish your hair and scalp.

RINSE THOROUGHLY

After a few minutes, rinse your hair thoroughly with water, ensuring no shampoo residue remains.

FOLLOW WITH CONDITIONER

For best results, follow up with our conditioner to seal in moisture and maximize the benefits of your hair care routine.

CONDITIONER USAGE

APPLY AFTER SHAMPOOING

After shampooing, squeeze out excess water from your hair.

APPLY THE CONDITIONER

Take a generous amount of our conditioner and apply it evenly through the lengths and ends of your hair. Avoid applying directly to the scalp.

MASSAGE AND WAIT

Gently massage the conditioner into your hair, focusing on the areas that need extra care. Allow the conditioner to work its magic for a few minutes.

THOROUGHLY RINSE

Rinse your hair thoroughly with cool water until the conditioner is completely washed out.

STYLE AS DESIRED

Towel-dry your hair gently and style it as desired. You'll notice a remarkable difference in texture, manageability, and overall appearance.

The frequency of use depends on your hair type and needs. For most hair types, using the shampoo and conditioner duo 2-3 times a week should suffice. Adjust according to your hair's specific requirements.

ADDITIONAL TIPS

For intensive treatment, leave the conditioner on for a longer period (5-10 minutes) before rinsing.

1

2

Use lukewarm or cool water for rinsing, as hot water can strip your hair of its natural oils.

Avoid excessive use of styling products that could weigh down your hair or affect the product's performance.

3

HAIR DEW USAGE

PREPARATION

Start with clean, damp hair that's been towel-dried to remove excess water.

SHAKE THE BOTTLE

Before using the Spray-On Hair Moisturizer, shake the bottle well to ensure an even distribution of the moisturizing formula.

SPRAY EVENLY

Hold the bottle a few inches away from your head and spray the product evenly through your damp hair. Focus on the mid-lengths and ends, where moisture is needed the most.

COMB OR DETANGLE

Gently comb through your hair with a wide-tooth comb or your fingers to detangle and evenly distribute the moisturizer.

AIR DRY OR STYLE

Allow your hair to air dry naturally to enhance its natural texture, shine, and moisture. Alternatively, use a hairdryer to style as desired.

ON-THE-GO HYDRATION

Throughout the day, if your hair feels dry or lacks vitality, a quick spritz of the Spray-On Hair Moisturizer can instantly revive its moisture and shine.

HAIR TONIC USAGE

PREPARATION

Before applying the hair oil, ensure your hair is dry or slightly damp.

DISPENSE THE OIL

Depending on your hair length and density, dispense an appropriate amount of the hair oil into your palms. Start with a small amount and add more if needed.

WARM THE OIL

Rub the oil between your palms to warm it slightly. This makes it easier to distribute evenly throughout your hair.

APPLY TO SCALP

Begin applying the oil to your scalp using gentle massaging motions. Focus on the roots, where the oil can nourish the hair follicles.

SPREAD TO ENDS

Gently work the remaining oil through the lengths and ends of your hair. Ensure even distribution to maximize benefits.

HAIR CREAM USAGE

DISPENSE THE CREAM

Depending on your hair length and thickness, dispense an adequate amount of the hair cream into your palms.

RUB AND WARM

Rub the cream between your hands to warm it up, making it easier to spread and apply.

APPLY EVENLY

Gently spread the cream through the lengths and ends of your hair.

NOTE

COOL STORAGE

Store the product in a cool place, which could mean a room with a controlled temperature

PREVENTING MELTING

Avoid exposing the product to high temperatures or direct sunlight, as this could cause it to melt.

REFRIGERATION FOR HARDENING

If the cream does melt, place it in a refrigerator to allow it to harden up again. This is a common practice for many creams and similar products.

DERMA ROLLER USAGE FOR SCALP:

**IF YOU DON'T HAVE A DERMA ROLLER IN YOUR SET,
THERE'S NO NEED TO WORRY.**

PREPARE YOUR SCALP:

Ensure your scalp is clean and dry before using the derma roller. Wash your hair with a shampoo and let it air dry.

DIVIDE YOUR HAIR:

Section your hair to expose the scalp. Use clips or ties to keep the hair out of the way.

ROLL WITH GENTLE PRESSURE:

Hold the derma roller with gentle pressure and roll it over the scalp in various directions, covering the entire scalp. Apply vertical, horizontal, and diagonal movements.

FOCUS ON PROBLEM AREAS:

Concentrate more on areas with thinning hair or hair loss if you have specific concerns.

AVOID IRRITATED AREAS:

Do not use the derma roller on an irritated or wounded scalp. If you have any skin conditions, consult with a healthcare professional before use.

APPLY SCALP PRODUCTS:

After using the derma roller, apply Organicure hair growth products.

DERMA ROLLER USAGE FOR BEARD:

**IF YOU DON'T HAVE A DERMA ROLLER IN YOUR SET,
THERE'S NO NEED TO WORRY.**

CLEANSE YOUR FACE:

Wash your face with a gentle cleanser to remove any dirt or oils. Pat your beard area dry.

ROLL WITH GENTLE PRESSURE:

Hold the derma roller with gentle pressure and roll it over the beard area, covering the entire region evenly.

ROLL IN SECTIONS:

If you have a specific area of concern, like patchy beard growth, focus more on those sections.

APPLY BEARD PRODUCTS:

After using the derma roller, apply organicure hair growth products.

CLEAN AND STORE:

Clean the derma roller after each use by soaking it in rubbing alcohol. Allow it to air dry before storing in a clean, dry place.

**Use it 1-3 times a week.
Avoid overusing it, as the
scalp needs time to
recover between sessions.**
